REPUBLIC SPE JAL.

Washington, Aug. 6.—The order of Postmaster General Smith, fully defining the class of mail matter that can be sent through the mail at second-class rates and requiring that a large quantity of periodicals so classified previously pay third-class rates is apparently being accepted by publishers with good grace.

Investigation into the law and authority of the Postmaster General to issue this order has not developed any legal defect in it, and there is little probability that it will be contested in the courts. It is thought to be unlikely that any excious effort will be made to reverse this order through legislation.

NEWS FROM EAST SIDE CITIES.

ONE STEER TOO MANY | KURRUS BUILDING CAUSES LEGAL FIGHT.

Farmer Who Accidentally Ships Animal Not His Own Is Arrested and Retaliates With a Suit.

Several days ago William Marshall, a farmer, living near Kane, sold twenty-four steers to Paul Nitschke, a Jerseyville butcher. Marshall drove the cattle to Jerseyville and placed them in the pasture belonging to Nitschke.

Later Marshall called upon Nitschke for payment, but the latter told him he could ship the cattle to East St. Louis himself if he so desired. Accordingly Marshall shipped the steers. When the car arrived at East St. Louis it was found to contain twentyfive steers instead of twenty-four. Marsha singled out the extra steer and had a sep-arate check made out for it. Upon his re-turn to Jerseyville Marshall deposited the check for the extra steer in the State Bank to the credit of whomsoever might prove

wnership. Upon Marshall's return Nitschke had him served with a warrant, charging theft, alleging that the extra steers had been stolen from Nitschke's bunch. A preliminary hearing was given Marshall on Friday before Justice J. G. Erwin and Marshall was bound over to the Grand Jury in the sum of same

of \$300.

As a retaliatory measure, Marshall brought suit against Nitschke for the difference in the price of the steers and the price at which, it was claimed, Nitschke agreed to buy them at first. The trial of the latter case came up yesterday before Justice J. C. Ross. Eminent legal talent was retained on both sides. Marshall was represented by Attorney F. A. Whiteside of Carrollton and Former State Attorney Martin J. Dolan of Jerseyville. Former Representative Thomas F. Ferns of Jerseyville appeared for the defense.

After hearing the testimony the jury awarded Marshall damages for the difference between \$4.25 a hundred, the price which Marshall claimed Nitschke agreed to give him, and \$2.85, the price the cattle brought on the market at East St. Louis.

Whirled to Beath by a Pulley.

Andrew Jackson, a negro, employed at the plant of the Illinois Box Company at Alton, met death in an accident at that place at 10 o'clock yesterday morning. Jackson, with four other workmen, Ned Hanlin, Bert Fage, William Zimmerman and H. Sudbrook, were trying to shift a belt to a rapidly moving pulley in the cellar of the factory. The belt suddenly caught on the pulley and at the same time caught Jackson, and began whirling him around. Both legs and both arms were torn from his body, and it is thought that every bone in his body was broken. Jackson was 42 years old and leaves a widow and five children. Whirled to Death by a Pulley.

Additional Branches of Study.

The Board of Education of Upper Alton has decided to add two more branches of study to the public school work. The branches will be vocal music and drawing. These two departments will be opened with the beginning of the school year in September, but the teachers have not yet been secured. The action creating these two departments took place at a meeting of the board last evening. S. B. Gillham was relected president of the board, and Enos Johnson secretary.

IS BEING WRECKED!

Street Inspector's Men, Protected by the Police, Are Doing the Work.

Only a shell of timber remains of ilding owned by Joseph A. Kurrus of East St. Louis and recently condemned by the City Council as unsafe and a public nuisance. The work of wrecking the building was commenced early yesterday morning by a gang of East St. Louis street laborers, who worked under the orders of Street Inspector Miller.

Mr. Kurrus and his son entered objections to the wrecking of the building, and it was thought for a few moments that per-sonal opposition would be used. Chief of Police Hauss and several of his officers were on the scene, however, and the work of destroying the building was allowed to

go on unmolested.

The wrecked building was only a hundred feet from the new City Hall, and has been an eyesore to members of the Council for some time. The upper story, which was the one that was wrecked, the lower story being below the level of the sidewalk, has been in a partial state of decay for some time. Recently a portion of the brick wall fell out over the sidewalk. A policeman who happened to be passing at the time nar-

who happened to be passing at the time narrowly escaped injury.

Two weeks ago the City Council declared the building a nulsance and condemned it. Mr. Kurrus was given ten days in which to wreck the building. He declared that it would not be wrecked, and it was thought that he would use force to oppose any attempt at wrecking it. Instead, however, Mr. Kurrus will appeal to the courts. It is expected that he will be sued by the city for the payment of the work done in the wrecking of the building. Several days ago he had some men employed at repairing the building. They were arrested. Their trials will be held the latter part of this week.

Building Permits Issued. Building Permits Issued.

The big increase in the horse and mule trade at the Nationi Stock Yards, East St. Louis, has compelled the Stock Yards Company to make arrangements for another big horse and mule barn, which will cover a floor space of 150 by 200 feet. It will be located at the corner of First street and Pennsylvania avenue. The cost of the building will be \$1,690. Other building permits issued yesterday were to:

J. H. Liebig, store and residence on Missouri avenue, between Fourteenth and Fifteenth street, cost \$2,000.

Addition to Big Four freight-house, southeast corner Front and Bogy streets, cost \$1,000.

Doctor E. Thompson, addition to resi-H.002.

TEXAS HAD \$390,000 IN BANK THAT CLOSED

Legislature Will Be Asked to Investigate - Governor Touches Upon Matter in His Message.

REPUBLIC SPECIAL. Austin, Tex., Aug. 6.—The closing of the First National Bank of this city by order of the Comptroller bids fair to develop

omewhat of a sensation inasmuch as the Texas Legislature, which convened at noon to-day, proposes to investigate why some \$39,000 of the State's money was on deposit in said bank. The State has no bank depositories, all the money being kept in the vaults of the State

Treasurer. Of late years, however, it has been the custom to collect all accounts due the State through the various banks in this and other cities in the State, and it is now explained that the presence of this large amount of money in the vaults of the First National Bank of this city was due to the fact that it was the principal collecting bank for the Treasurer, and this accumulation was a line of collections that had been allowed to remain in the vaults of the bank. Be that as it may, the Governor touched on the matter in his mersage to the Legislature to the effect that the State was a large loser by the closing of the bank, and, white in no position to state what the loss would be, owing to the alleged inability to secure a statement from the bank's receiver, the Governor hald the matter before the Legislature for its consideration. As a result a resolution will be introduced to-morrow morning providing for a committee of five with penary powers and jurisdiction to thoroughly investigate the matter.

There is some talk that this investigation may bring about embarrassing results. The State Treasurer is under bond for \$15,000, the sureties being responsible for that amount only, which does not in any way cover the large loss the State will incur if the bank is unable to straighten out its difficulties.

Governor's Message to Legislature. owed to remain in the vaults of the bank

the bank is unable to straighten out its difficulties.

Governor's Message to Legislature.

The Texas Legislature's present special session is for the purpose of considering the redistricting of the congressional districts of the State, so as to provide for sixteen, instead of thirteen, as at present, as the result of the Federal census report. The Governor sent in a message on that subject, likewise asked for the passage of an appropriation bill covering the coming two years, and in the course of his message asked that favorable consideration should be given an appropriation for the maintenance of the Volunteer Guard Association of the State, which has hitherto been neglected by Texas legislatures. In addition to the above recommendations, the Governor's message says:

"In connection with the usual appropriations for the penitentiares, I have to most earnestly recommend that authority be given the Penitentiary Commissioners to erect a mill and purchase suitable machinery on credit for the purpose of grinding the sugar cane to be grown next year and thereafter upon the old William Clemens farm in Brasoria County."

This property was acquired by the Penitentiary Commissioners of land.

WAR ON MOSCHITOS

WAR ON MOSQUITOS.

Health Authorities Undertake Interesting Experiments.

New York, Aug. 6.-Doctor A. H. Doty, Health Officer of the port, and his asistants have at last commenced the war of destruction on the mosquitos of Greater New York and vicinity. They have at last taken their paraphranila, which consists largely of kerosene oil, to the pond near Concord, Staten Island, and forced barrels of the oil under the surface of the water. It was expected that while the fluid is making its way to the surface it will destroy all the embryonic mosquito life therein. Doctor Doty said he could not be positive about the success of the experiment for a month to come, but he thought it would work well.

Doctor Eugene Monaghan, Sanitary Superintendent of the Borough of the Bronx, says he believes the malaria at Fordham was caused by the mosquitos. The experiments of Doctor Doty are being watched, and if they are successful the scattering of oil on the swamps and low places in Fordham will be begun. of destruction on the mosquitos of Greater

GAS FOUND IN MATTOON.

REPUBLIC SPECTAL. Mattoon, Ill., Aug. 6.-Ex-Mayor Frank Kein has struck gas at depth of seventy feet in a well sunk just at the rear of his feet in a well sunk just at the rear of his business block in the heart of the city. The flow was found late yesterday afternoon and was allowed to burn all night Dozen of private wells will be sunk by others enceuraged by Mr. Kein's success.

The Corn Belt Oil and Gas Company has announced that drilling will be begun August 29 at Gays, six miles west of Mattoon, where promising gas wells have already been located. Reservoirs will be built at Gays, and the gas piped to this and surrounding cities.

Mattoon business men have raised \$5,000 to drill 2,000 feet through Trenton rock on sites just south of the city. Within a belt thirty-five miles long and twenty-five wide, with Mattoon as center, thirty successful shallow gas wells are in operation.

DAMAGE MAY NOT BE SERIOUS. Corn, Apparently Ruined by Heat,

Gives Signs of Life. REPUBLIC SPECIAL Medora, Ill., Aug. 6.-Reports from farmers in this vicinity indicate that the damage to corn by heat, and drought, has age to corn by heat, and drought, has been overestimated, and that there will be at least a partial crop. Stalks of corn with tassels baked lifeless, exhibited in this city by E. B. Rhoods, a farmer, living north of here, give evidence of a healthy growth, the ears being large and well developed. This is accredited to a scattering of pollen from healthy stalks by the wind.

Harrie's Odd Sign.

The following odd sign has attracted much attention: "Use Your Feet for Moving Wagons." It is prominently displayed in front of Harrie's shoe store, 529 Pine street. Mr. Harris's explained that September I would find the Harris Shoe Co. located at 42-411 North Sixth atreet, the ground floor of the Equitable building, and between now and August II it is his intention to clean up everything at the old store, and that the public should be his "moving wagons"—or that well-shod feet should remove his \$15,000 stock.

He has accordingly cut prices—one-half on every pair of shoes in the store at 520 Pine. The sale started August I, and, he says, over five hundred pairs were sold Seturday. The show windows show the goods and prices, and it will be worth your while to see them. The old store is for rent, and all the fixtures, shelvings—in fact, everything—for sale.
